

Have an innovative technology idea?

Discover how your business
can receive up to \$1.25 million in federal R&D funding.

Attend a free, online workshop to learn about the federal SBIR/STTR program.

The federal Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) program provides early stage equity-free funding to early stage R&D companies. It has helped 23andMe, iRobot and Qualcomm become the large, successful companies they are today. This \$3.7 + billion program is the largest source of early-stage, high-risk technology funding in the country, and this free, online workshop will show how your small business can access it.

SBIR/STTR funding is highly competitive.
Don't miss this amazing opportunity that could help fund your innovation.

This **free, online** workshop is hosted by MTI's Karen West, an SBIR/STTR expert who has helped numerous Maine businesses develop winning proposals. The workshop will cover:

- What the SBIR/STTR program is and how it works
- An overview of the 11 federal agencies that participate and the types of innovations they're seeking
- The elements of successful proposals
- MTI's Technical Assistance Program, which helps companies develop competitive SBIR proposals
- Time for Q&A

MAY
13

1:30 pm — 3:30 pm

Online
