

# Have an innovative health or life sciences idea?

**Discover how your business can receive up to \$1.25 million in federal funding.**

## Learn about federal SBIR/STTR funding available from the National Institutes of Health.

The federal Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) program provides equity-free funding to early stage R&D companies. Each year, the National Institutes of Health invests over \$1 billion in health and life science companies with innovative ideas in the fields of biotech, biopharma, medical devices and more. Attend this free, online workshop and learn how the NIH SBIR/STTR program could fund your innovative business idea.

**SBIR funding is highly competitive. Don't miss this amazing opportunity that could help fund your innovation.**

This **free, online** workshop is presented by BBC Entrepreneurial Training & Consulting, a nationally recognized SBIR/STTR firm with expertise in the NIH program. It includes:

- Presentations by SBIR experts Becky Airstrup of BBC and Karen West of MTI
- An overview of the NIH SBIR/STTR Program
- Proposal preparation considerations
- An overview of MTI's Technical Assistance Program, which helps companies develop competitive SBIR proposals
- Time for Q&A with our experts
